Phone: +972 54 491 4495

Technical Product Professional with a strong background in QA engineering, Lean UX, and user research. Experienced in bridging user needs and dev teams, leveraging GenAI tools to accelerate product lifecycles. Currently based in Vienna, Austria - willing to move within the EU.

Experience

QA Manager

SmartNPI | Jan 2023 - September 2025

- Defined and executed end-to-end testing strategies, tool stacks, and project timelines.
- Collaborated with PMs, dev teams, and US clients to align feedback with product roadmaps.

UX Designer & Researcher

[Energy Team](#) | Dec 2020 - Sep 2022

- Led end-to-end Lean UX design for 'Mil'jobs' mobile app, from user research to interactive prototyping.
- Conducted complex web system user research and testing (observations, surveys, interviews) using Figma.

QA Engineer

[Korentec](#) | Oct 2018 - Feb 2020

- End-to-end test engineering, developed API tests using Postman and JavaScript.
- Full STP/STD/STR documentation and collaborated cross-functionally with PMs and Dev teams.
- Managed test planning and defined the "Definition of Done" for features, prioritizing executions based on urgency.

Education

- B.A from Bar-Ilan University in the 'Social Sciences with a focus on High-Tech' program. Includes Erasmus exchange semester at Lauder Business School, Vienna.
Outstanding Dean. GPA: 98/100
- Full PM Course @ Bar Ilan University (non-academic) (2025)
- UX Specializations: Bex Academy, Udemy, Nemala Studio, Tal Florentin (2020-2022)
